

# 1000 Series Bed

## Cleaning

- Always disconnect the bed from the power source before cleaning;
- Use a standard medical grade or a household detergent to wash the bed by hand. These products may be applied by spraying directly on the bed;
- May be steam washed, but do not use high pressure stream;
- Never use high pressure streams of water. Ultrasounds and submerging parts of the bed for cleaning are not recommended;
- Ensure that the bed is dry before use.
